

Nine (9) public information sessions across the state.

What is the STIP?

The State Transportation Improvement Program is a document developed cooperatively by local, regional and state transportation entities. It includes a list of multi-modal transportation projects, such as highway, transit and bicycle based on the state's long-range transportation goals. The projects are drawn from and are consistent with a Statewide Long-Range Transportation Plan, Countywide Transportation Plans and Metropolitan Transportation Plans.

The projects included in the document were selected using a data-driven prioritization process created by the [Strategic Transportation Investment](#) Law (STI), which was passed by the General Assembly in 2013.

What is the purpose of these sessions?

To inform the public about the projects in the Draft STIP and gather input on the process to create it. People who cannot attend a meeting in person can also provide feedback via phone, fax and e-mail.

Meeting Format

Open-house format. **There will be no formal presentation.** Participants can drop in during the meeting hours to study maps of proposed projects, view an interactive STIP map, and review the project information with NCDOT staff.

**STRATEGIC
TRANSPORTATION
INVESTMENTS**
Smart decisions to keep North Carolina moving.
